

108 registered participants!

Many thanks to you all and to our friends from Australia, Brazil/
Spain, Chile, Japan, Russia, UK, USA

Goals

- Update on mission status: We have a realistic launch date: March 2019
- Organization of Work flow during mission operations
- Preparation for Calibration and 'early science' activities (PV phase) – Instrument Papers!
- Clear plans for early science from WGs
 - We'll be severely man-power limited: plan ahead
 - Focus on potential fruitful collaborations
 - Help planning funding proposals for eROSITA scientific exploitation
- General discussion about Consortium status and perspectives
 - Including relationships with other large survey teams worldwide
 - Input for policies revision
 - Input test for existing collaboration tools (eROSE, eROPub) and possible extension (SciServer)

Proposal for Next Meeting(s)

- WG chairs meeting at IKI, Moscow in Fall 2018
- Consortium Meeting: Jan/Mar 2019 in Potsdam (TBC)
- Consortium Meeting: ~July 2019 at MPE (TBC)
- Regular Working group meetings leading up to launch

THANKS!

[Adam, Florian, Jacob, Linda, Riccardo]

- And Don't forget to upload your talks (and pictures) on the Wiki!
